EasyDry

Towards Cleaner Building Spaces

28 February 2026 | Team 3

Some discomforts are so small,
we never talk about them
But we never
forget them either

VISION

EVERY STEP **DRY**

EVERY SPACE **CLEAN**

EVERY DAY **UNINTERRUPTED**

THE PROBLEM

Weather walks in with People

Rain Snow Slush  Mud

For People

Slow drying. Discomfort.
Bacteria. Odor. Shoe damage.

50% of survey respondents
Do nothing and just deal with wet shoes.

*40+ interviews & survey conducted among students & office employees.

For Spaces

Rising maintenance cost.
Slippery floors. Tracked dirt.

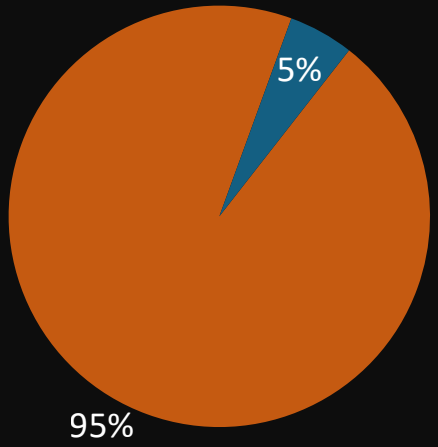

Facility Managers spend more than $1000/month* for additional labor and cleaning supplies.

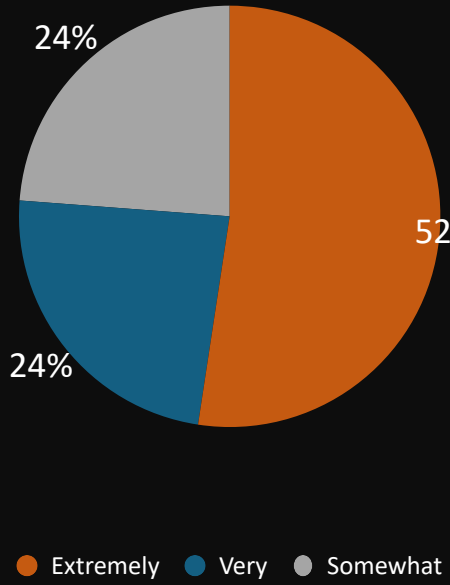

*3200 ft² commercial space.

USER INTERESTS

Over 75% would like Shoe Dryer at Workplace

95% of survey audience* prefer Dry Shoes over Clean Shoes

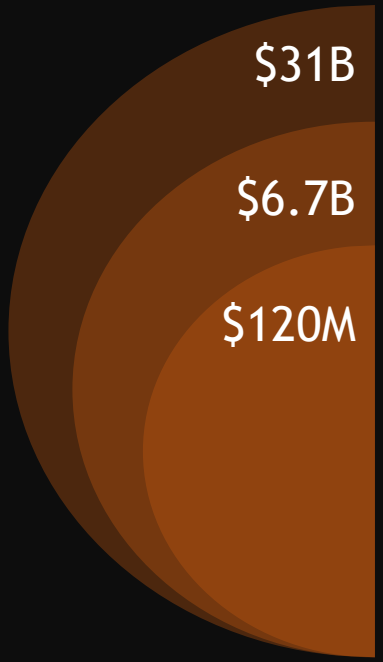

52% of survey audience* expect Shoe Dryer at their Workplace.

*40+ interviews & survey conducted among students & office employees.

THE PROBLEM

Understanding the User needs

Wet shoes in High-Traffic Setting

Odor & Hygiene concerns

Dirt-tracking into Indoors

Footwear damage from moisture

Not being barefoot

Ultrafast Drying – 15 to 30 mins

Built-in UV sterilization

Sole Cleaning

Controlled drying preserves lifespan

Reusable comfort slip-ons provided

THE SOLUTION

One Device. Dry. Clean. Sterilized

Ultrafast Drying

Complete Dry in 15-30 minutes

Sole Cleaning

Automatic Dirt & Debris Removal

Silent Design

Elegant & Whisper Quiet

UV Sterilization

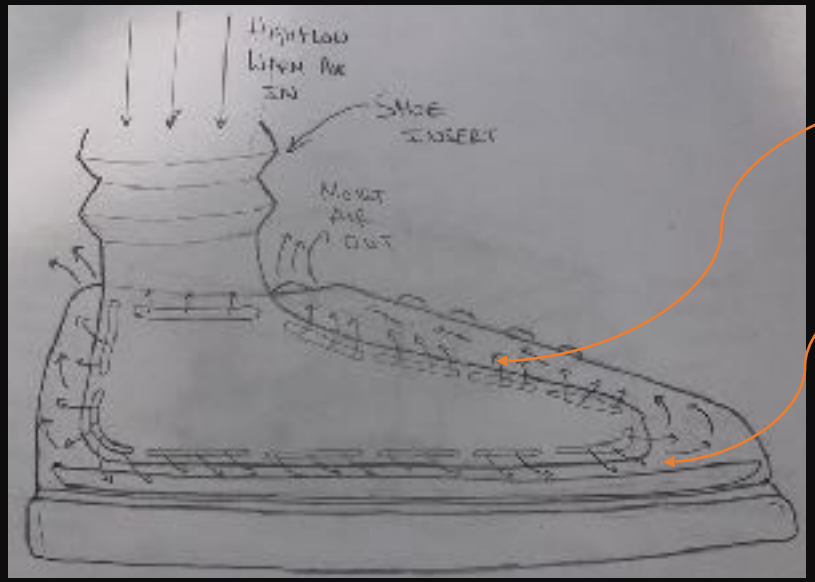

Kills Bacteria and Eliminates Odor

Comfort Footwear

Culturally Considerate

DEFENSIBLE PRODUCT

Shoe Insert - Targeted Drying Action

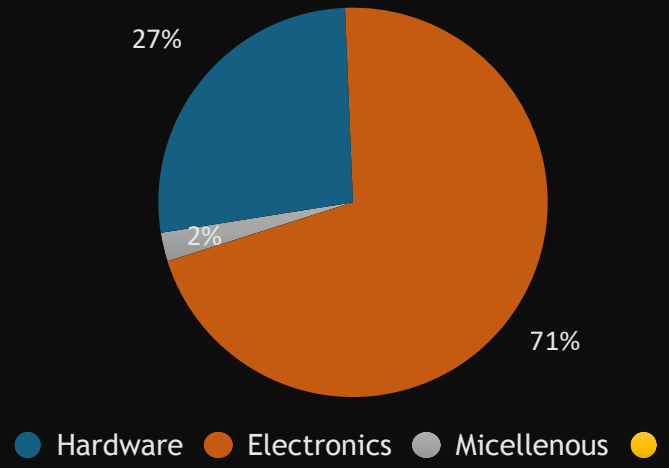

- Shoe Insert with array of Air Jet Nozzles on surface.
- Targeted Moisture Removal in crevices.
- Material Protection through temperature-controlled Air-jets.

COST BREAKDOWN

Product cost at $123
